Peter

Dear Mr. McCallum:

Re: Final Approval of Interim Pine Canyon Reclamation Plan,
Kennecott, Utah Copper, Anaconda Carr Fork Project, M/045/004,
Tooele County, Utah

Thank you for your October 31, 1988 letter responding to our September 26th conditional approval, of Kennecott's reclamation proposal for the Pine Canyon property. The Division has inserted the replacement pages and revised maps, which were received November 8, 1988, into the original reclamation proposal.

Kennecott has now provided adequate responses to all of the Division's conditions to final approval. The Division hereby issues its final approval of the Pine Canyon reclamation proposal. As a reminder, the timeframe from our September 26th letter, is attached for Kennecott's future reference.

The Division establishes a 120 day deadline for submission of a final reclamation plan for the remaining Pine Canyon mining facilities, following completion of this interim reclamation project, or April 1, 1989, whichever comes first.

The Division appreciates Kennecott's cooperation in finalizing this permitting activity. Please feel free to contact us at any time should you have additional permitting questions or concerns.

Sincerely,

Lowell
